Issue 164

27th March 2026

## Principal's Welcome

Dear Parents/Carers,

As we reach the end of what has been a very short but incredibly busy half term, I am delighted to reflect on the many achievements, experiences and moments of growth across our school community. I hope that you have all had an opportunity to read our Outstanding Ofsted report, which is a true reflection of the amazing support our students within the residential provision receive.

Throughout the past few weeks, students have shown fantastic engagement in their learning across all areas of the curriculum. From exploring space, habitats and the environment in Science, to developing persuasive writing, debating skills and creative storytelling in English, it has been wonderful to see such curiosity and enthusiasm in every classroom.

There have also been some fantastic enrichment opportunities. Highlights include visits to the planetarium, participation in table cricket where our students achieved great success, and a truly inspiring workshop with a visiting artist, which encouraged creativity, resilience and confidence. Students have also represented the school brilliantly in events such as the Young Enterprise Awards, where teamwork and enterprise skills were celebrated.

Across the school, we have continued to place great importance on personal development. Students have engaged thoughtfully with topics such as relationships, mental wellbeing, diversity and inclusion, demonstrating maturity, empathy and respect for one another. Events such as World Book Day, Neurodiversity Celebration Week and preparations for World Down Syndrome Day have provided meaningful opportunities to celebrate individuality and promote a strong sense of community.

It has also been pleasing to see students developing important life skills—whether through community visits, enterprise projects, cookery, or collaborative work—helping to build independence and confidence for the future.

Thank you to our staff for their continued dedication, and to families for your ongoing support. I wish you all a restful break and look forward to welcoming back all students on Monday 13th April.

Thank you for your continued support.

With best wishes

Sarah Thompson  
Principal

# 2025-2026 TERM DATES

<b>EASTER HOLIDAY</b>	
Start of Summer term	Boarders: Monday 13 <sup>th</sup> April 2026 Day Students: Monday 13 <sup>th</sup> April 2026

## DATES FOR YOUR DIARY

14th April - College Spring Fair for school students to attend at College, students to bring no more than £5.

15th May - International Day of Families, to celebrate this we would like to compile a book of the students favourite family recipes. We will provide a blank recipe page and hope you can all participate in collecting some yummy recipes that we can recreate at college, school and at home. The recipes could be a starter, main, dessert or snack.

# ST CATHERINE'S ROUND UP

I am delighted with another Ofsted outstanding social care inspection, the inspectors praised the progress and development of our students. The Board's thanks go to Kat and all the staff who work tirelessly to provide a safe, caring and supportive environment for our young people to live and learn in. The Board received our annual accounts from external auditors at our last meeting and are very pleased with another solid financial performance, this underpins our ability to continue to invest in St Catherine's for the future. The Board continue to monitor the annual improvement plan for St Catherine's and currently we have 70 actions for the year. I am pleased with progress, 18 actions are completed, 41 progressing well and 11 waiting to start. The Board have received a report from our IT manager and our major upgrade is progressing as planned, part of the work is to replace our main computer servers over the Easter break.

I hope to see some of you at Coffee morning on Friday and that you all have an enjoyable Easter break.

Graham Pengelly  
Chair of Trustees

---

# ST CATHERINE'S ROUND UP

This term we say goodbye to Katie Mansbridge who is moving on to a new chapter. We will be welcoming a new Communication Support Worker (CSW) to our team in the next term. Amy Welsh joins us on 20th April and Amy brings a wealth of experience of working as a CSW and with the deaf community.

This term we have also had two new Teaching Assistants join the school, Hannah Cranshaw and Louisa Mursell. Some of you may remember Louisa who has worked at St Catherine's before, Louisa is very pleased to be back and said it feels like "coming home".

On our first day back after the Easter break, Kirsten Crosby will join us as our new Literacy Lead for the school. Kirsten is making the move from the mainland to join St Catherine's. Kirsten has many years of experience and we are looking forward to her joining the team.

# 2026 EXAM TIMETABLE

EXAM	DATE	TIME AM Start 09:00 PM Start 13:30	LENGTH	STUDENTS Students will sit exams depending on their options. If you are unsure which exams your child will be sitting, please contact their class tutor.
<b>Entry Level Certificate in English Component 1: Writing Paper</b>	Thurs 7 <sup>th</sup> May 2026	PM	1h00m	Year 11 Branson/ Newton/ Burton/ Goldberg students

Fresh Fruit Platter	Artic Roll	Fresh Fruit Salad	Cookies	Pudding of the Day

Fresh vegetables and salad are available with all main meals. Fresh fruit and yoghurt are always options for dessert.

## BLOOM CLASS

Charlie:

This term I've enjoyed playing tag rugby and cricket in PE. I like learning how to throw the ball properly and to get the tags from each other. In PSHE, we did about feelings and in Maths, I liked that in multiplication you can swap the numbers around and the answer stays the same. I'm looking forward to chilling in the Easter holiday and I'm excited for Tennis when I get back.

---

## RADCLIFFE CLASS

Tristan:

In Maths 'shapes, fold, patterns. In half and quarters'. In History, 'King Charles, he lives in Buckingham Palace, London. Wife name Camilla'. In Science, 'summer and winter, cold and summer. Put scarf and hats on in winter. In morning get up, brush hair, go to school. In night time brush teeth'. In English, 'Planetarium, space and rockets. Moon at night time. Paintings of planets'. In DT, 'bridge, house'. In P.E. 'handball, catching'.

---

## HOPKINS CLASS

Shaun:

We have been writing and learning about a penguin that shows up at a person's house and we've been writing about it. In Science, we have been learning about the planets and we got to go on a trip to the planetarium. In PE, we have been doing cricket and tag rugby. I have enjoyed swimming in Friday's club time. In Art we got to make the Northern Lights with acrylic paint and a black primed canvas.

---

## PACKHAM CLASS

Francesco:

In Forest School, we made log men and we went into teams to do it. They were big like a 6 year old and it was so much fun because we used them for first aid. In OT, we learned how to use a pan safely and we made bacon and sausage sandwiches and they were really tasty. I like cricket because it was fun in PE and I liked the batting and the fielding part. We did tag rugby too and that was fun because we had to wear tags on our waist and learn throwing and catching. In English with Miss Flower we did The Kapok Tree and where food comes from and I liked the parrot best out of the rainforest animals. We did animals in Science too and saw habitats and environments and did you know a whale is a mammal? It was interesting because it lives in the sea like a fish but it isn't one.

---

## OLIVER CLASS

Final:

I have enjoyed Forest School this term because we made our own garlic bread. I have enjoyed PE because I can play with my other friends. I liked doing Around the World Club because I could hang out with my friends and I tried new foods. I liked English because I wrote about The Nightmare Man. I liked Science because we started to watch The Lorax.

# AUSTEN CLASS

Roaa:

I have enjoyed PE as we are doing tag rugby and cricket. In English, writing short stories about kidnapping, aliens and nightmare Nan. Doing decimals in Maths and habitats in Science. Doing clay in Art and graphics in DT. Miss Finaughty has said we were the best class at this.

---

# GOLDBERG CLASS

William:

This half term we went to BAE Systems and looked at radar/technological/Lego/robotics projects that other schools and us were seeing and working on. We have been reading the book 'Holes' in English and have made exceptional progress on our newsletter on it. I have LOVED Chess Club and all the matches I played! In Science, we have been doing a survey on the lizards at our school. We spotted many large ones down near Yellow building which supposedly makes them Yellow-spotted lizards (hint to 'Holes'). We have also been working on a robot which we presented last Monday.

---

# BURTON CLASS

Joseph

In Music, I have enjoyed listening to the Blues and playing the piano. In Humanities, we have been learning about the Mayans. We have learned about a game called Pok-ta-Pok. This is a ball game where you have to get the ball through the hoop to win. However, you can only touch the ball using your elbow, shoulder and knee. This game is still played today and there is a World Championship. In Science, I have enjoyed learning about habitats and I have written a report about rhinos which are endangered animals. In English, I enjoyed acting out the story of the Great Kapok Tree. I was the bee who spoke to the man.

---

# NEWTON CLASS

Kayan:

We went to BAE Systems and had a look around. They had some amazing ship radars. We had fun building Lego ships. In RE day we learnt about fasting. We meditated outside for 10 minutes, which I actually enjoyed. In English, we have been writing letters of complaint. In Maths, we have all taken our Entry 3 papers which we are super proud of. The highlight of Science was setting fire to methane bubbles. Circuit training in PE has been tough... but that's the point of it, isn't

# BRANSON CLASS

Levi:

This term in English I enjoyed reading the book 'Holes'. I really enjoyed learning about space in Science. In Humanities I found out a lot about our school. I love our photography topic in Art. I enjoy PE and learning about circuit training. I am doing D of E every Friday. We practice cooking and I am looking forward to walking too.

---

# WATSON CLASS

Caitlin:

This half term I have enjoyed learning about poetry in English and analysing a variety of people through descriptions. In Music, I have been learning different Blues pieces on the keyboard and showing improvement. I enjoy PE Circuit Training this term because it is repetitive and easy to follow. I am improving all the time. I enjoy Maths, this term I have been practicing exam questions. Maths is superdoopa troopa cool!

---

# 6JG CLASS

Lulu:

This term in OT we have had a focus on potatoes, we have been learning to chop potatoes. Every week we have had a 'Chip Off', each making a potato item and then rating them all once we have finished. This has been great fun. In GCSE Food we have learnt about different meals for different dietary requirements including: vegan, vegetarian, pescitarian and some religious diets. In Land Based we have been growing plants in a propagator, we have taken it in turns to take on the responsibility of watering them. This term has been enjoyable.

---

# 6AMD CLASS

Sharlene:

This term we have done mock exams, they were alright, they help us figure out what we need to learn. We have also been doing lots of revision. In OT, we have been doing potato stuff called the Chip off and everyone has to vote which recipe they like. We have been adding different herbs and spices to make our potatoes tasty! I've been going to The Heights for Clubs where I've enjoyed playing squash.

# 6ILP CLASS

Keagan:

I have enjoyed some art lessons. I like the messy lessons rather than the more traditional drawing. I have enjoyed off-campus trips engaging with the local community, especially playing cricket yesterday in Sandown. I have enjoyed the Math lessons, I have been working on data gathering then producing digital charts. I have been reading lots of short books this term, the main one being the Happy Prince by Oscar Wilde.

---

## ST CHRISTOPHER'S UPDATE

Students in St Christopher's have been busy with many different activities this term including golf at the driving range, swimming, cinema, trip on the floating bridge and a photo challenge in Sandown. The students have been working hard on developing life skills, in weekly sessions they have been working on how to use their phones appropriately, hair styling, fire prevention and mental health. Within the house students have enjoyed playing in the play lounge with Lego, trains, fancy dress, dolls and Barbies. We had an evening of arts and crafts making Mother's day coasters. As the clocks change and the weather will be improving we are all looking forward to spending more time outside and in local parks.

# ST MARGARET'S

This half-term St Margarets students have been busy working hard on their life skills, these have included house shopping, appropriate use of mobile phones, fire safety, personal care, keeping your hair clean and healthy. Looking after your mental health and who you can talk to. Cooking with staff for the house, room tidies, and bus travel to activities. Activities this half-term have been athletics, table tennis, swimming, gym and squash at The Heights, football, walks to the outdoor gym and beach. They have been to crazy golf, bowling and cinema We have also celebrated a couple of birthdays one of which was an 18th. The students spent a couple of weeks making Mothers day cards and gifts. A few of the students who stayed over for the weekend from both houses in 6th form went fishing and crabbing off Yarmouth pier and wall climbing at The Bay School which they thoroughly enjoyed. We have also had a few day students staying overnight who have enjoyed joining in with the activities

---

# ST ANNE'S

St Anne's students have been busy this term, they have been to the golf range at Westridge where some students have hit 165 yards plus!! They should become professionals. We have been swimming and going to the Gym at The Heights, Sandown. Some students have attended athletics, table tennis and football clubs. Some students have been practicing their independence travel on Southern Vectis buses and the train from Shanklin to Ryde; they have done this independently by researching the timetables and creating a travel plan. St. Anne's students have really been focusing on healthy and social eating. They have been making some delicious and exciting dinners and enjoying sitting around the table together. Students in the house are developing a good sense of awareness of each other, demonstrating support and encouragement towards each other independently of staff input this is really lovely to see.

# FOREST SCHOOL

After a rather wet start to the term with lots of hut based woodwork, the weather has finally started to improve and we have been out and about more, learning and developing lots of new Forest School games and activities and enjoying outdoor cooking. One group has been working on a particular woodwork project to make articulated log people so we can use them in casualty scenarios. The students involved used lots of problem solving skills to design and build their log casualties and are looking forward to finishing them and 'rescuing' them from the woods in their next Forest School rotation. Forest School /gardening club have also been working hard to clear an area we hope to develop into a wildlife pond and sensory garden.

---

## ST CATHERINE'S CHARITY SHOP

Here at the Charity Shop, we have been busy with Mother's Day, Spring and Easter! We are delighted to have a fresh influx of colour on the rails, and have lots of new Spring stock to help transition your wardrobe into a new season. I enjoyed sitting in on a lesson with students who were learning how to write a newspaper report, based on the book they were studying in class. This gave me another opportunity to get involved with students who potentially could come to the Charity Shop for work experience.

I hope students and staff have a restful and enjoyable Easter break, and if you are having a clear out, we are always looking for donations for the shop.

The shop will be open Tuesday to Saturday 9-4 in the Easter Holidays.

Thank you for the continued support.

Amanda, Charity Shop Manager

# ODD SOCKS DAY

Toby in Hopkins class won the £10 Amazon voucher for the coolest socks. He was sporting a pair of knee high running socks with a colourful landscape design. These were worn with his school shorts for the full effect. Toby was delighted with his prize. Thank you to the staff who took part today. Remember - we wear the socks because Chromosomes actually look like tiny socks under a microscope. Most people have two copies of the 21st chromosome, but people with Down syndrome have three. This is why World Down Syndrome Day is always on the 21st day of the 3rd month.

---

## DEAF CREATIVE THERAPY GROUP

Four of our students have been attending a creative therapy group. They came together as a group because they are all deaf. The sessions used a mix of movement and art therapy to help students share ideas, feelings and experiences. The group worked together to create an art piece that will hang in the dining room. The artwork helps raise awareness about the experience of being deaf and also helps improve the sound in the room. The art includes important parts of deaf identity, such as the deaf flag, cochlear implants, sign language and hearing aids. Working on this project together helped students express themselves, work as a team, and now share their experiences with others in the school.

The art piece is in the style of an artist named Keith Haring, who was famous for his abstract paintings. He used bright colours, bold shapes and always outlined his pieces in thick black pen. His art was often inspired by people's energy and movement.

If any St Catherine's students would like to make any art work about neurodiversity or the deaf community for the dining room, they will receive 100 BFL points! Students can give it to their tutors when we come back after Easter holidays.

The completed art work before hanging:

# SPEECH AND LANGUAGE THERAPY

Cameron has been working on describing in his speech and language therapy sessions. He has worked so hard this term, thinking about which categories objects belong to, words to describe appearance and the functions of different objects. Partway through the term, I found a puppet theatre which is something Cameron was really enthusiastic about. We used this to help work on his therapy aim.

"In speech therapy, Eloise found a puppet theatre in her office, so we decided to do some work in therapy using it! When we made our puppets, we thought about their appearance, categories and functions. It's been fun and funny making the puppets and doing the puppet show in speech therapy. My favourite part was basically making funny bits for the show."

## FUNDRAISING

August 10th – Wing Walk

Ready for a sky-high challenge with heart? On 10th August, you can take part an unforgettable wing walk to support St Catherine's.

Strap yourself to the wing of a vintage biplane and soar above the Isle of Wight — facing fears, ticking off a bucket-list moment, and raising funds that help St Catherine's continue its life-changing work.

Whether you're an adventure lover or looking for a meaningful way to make a difference, this wing walk is a once-in-a-lifetime experience with impact! Please use the link below to register any interest in the event.

<https://forms.gle/umjyjD3KjCX2ba3fA>

April 18th – Gala

Join us for a night to remember! On 18th April, the St Catherine's Gala returns for an elegant evening of great food, entertainment and community spirit — all to support St Catherine's.

Your ticket includes a welcome drink, a delicious three-course meal, and live entertainment, plus the chance to make a real impact for students who benefit from vital education and therapy services.

Whether you're looking for a lovely night out or a meaningful way to give back, this is the perfect way to support local children and young adults in reaching their full potential — all while enjoying an unforgettable evening.

April & May - Abseil

Join the St Catherine's Abseil challenge and test your nerve on an adrenaline-fuelled descent to raise vital funds for St Catherine's

Ready to step outside your comfort zone for something truly meaningful? Join the St Catherine's Abseil Challenge and experience the thrill of descending from new heights — all while raising vital funds for St Catherine's.

This exciting event is your chance to do something unforgettable while supporting the specialist education and therapy that helps children and young people with speech, language and communication needs thrive. Whether you're conquering a fear or simply love a challenge, ever step down makes a life-changing difference.

Be brave. Go over the edge. Make an impact.

Abseil The Spinnaker Tower  
 for  
 St Catherine's School

Dates available throughout April and May 2026

# NATIONAL ONLINE SAFETY

At The National College, our WakeUpWednesday guides empower and equip parents, carers and educators with the confidence and practical skills to be able to have informed and age-appropriate conversations with children about online safety, mental health and wellbeing, and climate change. Formerly delivered by National Online Safety, these guides now address wider topics and themes. For further guides, hints and tips, please visit [nationalcollege.com](https://nationalcollege.com).

## What Parents & Educators Need to Know about STREAMING SERVICES

Streaming services are platforms that allow users to watch cartoons, documentaries and movies online immediately (often referred to as SVoD: streaming videos on demand). Ofcom reported that children and young adults prefer streaming services to traditional TV. With two-thirds of UK households subscribing to at least one streaming service, parents must understand how to manage screen time, set age restrictions and ensure safe viewing.

### WHAT ARE THE RISKS?

#### COSTLY

Subscription services can be costly. As the main source of entertainment, most households have at least one streaming platform, and each platform has its own monthly subscription fee. Services are charging more for ad-free viewing, and better quality and resolution; however, there is a cheaper option with adverts. Due to price increases, Netflix and Disney+ reported a sharp increase in users subscribing to their ad-supported tier in 2025.

#### ILLEGAL STREAMING

Sharing passwords or using modified Fire Sticks to access streaming content without permission is illegal. Most streaming services have now put measures in place to detect account sharing. When account sharing is identified, platforms will offer an opportunity to pay for an added member or will ask the user to verify who they are.

#### AGE-INAPPROPRIATE CONTENT

Most streaming platforms allow users to set up a profile for each family member, with the option of putting specific restrictions in place. These include adding a profile lock or PIN, controlling autoplay of previews and next episodes, and limiting content based on age ratings. Nonetheless, these restrictions aren't foolproof. Content which is rated as suitable for an age group may still include themes, language, or images which children and families find inappropriate.

#### EXCESSIVE SCREEN TIME

Excessive screen time contributes to sedentary behaviour and can negatively impact physical and mental health. Ofcom found that 4- to 15-year-olds averaged 2.5 hours per day across all video-sharing platforms, not including gaming. The vast range of content available, combined with features such as autoplay, makes it easy for children to watch for extended periods of time.

#### BINGE WATCHING

Features such as autoplay make it easy for viewers – especially young people – to continue watching episodes without a break. This can foster unhealthy and addictive patterns, such as consuming a vast amount of content in one sitting. With binge watching come a lack of social interaction, lack of physical exercise, and often late nights and sleep disruptions which impact their mental and physical wellbeing.

#### HARMFUL STEREOTYPES

Many platforms track viewing habits, time consumed, and preferences, and generate recommendations to encourage your child to keep watching. This results in your child being in a 'loop' whereby they think the 'recommended' shows would be something they would enjoy rather than thinking critically for themselves. This can shape their beliefs, values, and understanding of the world from a young age without even realising it.

## Advice for Parents & Educators

### SET UP INDIVIDUAL PROFILES AND ADD PINS

Almost all streaming services allow users to set up individual profiles where each family member can have age restrictions put in place for the content they can view. Adult profiles can be protected through the use of PIN. Keep this private. Use the options of putting specific restrictions in place such as controlling autoplay of previews and next episodes, and limiting content based on age ratings.

### MONITOR AND TALK OFTEN

Discuss with your child what they are watching, find out which programmes are trending, and watch them yourself. Have a little look at their watch history to check the content of what they're watching. Some platforms have been known to recommend or autoplay older or graphic content after a child's movie has been played. While some TV shows or movies may have a suitable age rating, your child may still find the content scary, or it may explore themes you don't want to explore with your child yet.

### TALK ABOUT ALGORITHMS

Talk to your child about how streaming services track what they watch, and base adverts and recommended shows/movies on previous viewing. Encourage them to critically think about whether the recommendations are suitable and how they want to spend their time. Discuss stereotypes with your child and challenge them to think about what they watch and how this may influence their beliefs.

### SET TIME RESTRICTIONS

Many streaming services offer the opportunity to buy movies, or add additional features to your subscription such as sports channels, as well as play games. This can increase the amount of time young people spend sitting idly in front of the screen. Some platforms (e.g. Apple TV+) allow you to set screen time restrictions. If the streaming service doesn't allow you to set screen time limits, set a family rule and stick to it.

### Meet Our Expert

Dr Claire Sutherland is an online safety consultant, educator, and researcher who has developed and implemented anti-bullying and cyber safety policies for schools. She has written various academic papers and carried out research for the Australian Government, comparing internet use and sexting behaviour of young people in the UK, USA and Australia.
